In case there is only one task flown, or only 600 points achieved, this Sunday is reserved for a further task.

Starting method: by foot only, from wooden ramp and/or meadow slope

Starting sequence: One class by another, determined by the task committee.

For the first task the international FAI-ranking list applies, with the first ten listed pilots in reversed order. For the following tasks the daily updated competition ranking applies, in the same manner.

Restart is possible, as long the starting window is open.

Headquarter: at landing site Bleibach/Gutach (tent)

Competition classes: FAI 1 and FAI 5, each for men and women

Meet director: Dieter Münchmeyer

Scorer: Willi Kuck

Jury: to be determined, will be announced before competition starts

Validity: Following the priority ranking:

1. This event information
2. DHV competition regulations
3. FAI sporting code

#### Participants qualifying

The number of pilots is limited to 70-80 (due to size of launch site)

Participants have to qualify according to the International FAI-ranking list

The organiser reserves the right to select 5 pilots and 3 female pilots which are not qualified by the FAI-ranking list.

Livetracking Use of GPS- livetrackers (preferred is the Flymaster tracker as flight results can be directly evaluated) is mandatory.

The trackers have to be brought by each pilot, who is responsible for proper operation during all flights. DHV has 20 trackers for renting for 5 Euros per day. Please contact Regina from DHV.  
[regina.glas@dhvmail.de](mailto:regina.glas@dhvmail.de).

Documentation The tracklogs of the flights are evaluated via the livetrackers. If those data are insufficient, alternatively the records of other GPS-devices (must include altitude) will be evaluated. (Cables for download to be brought by the pilots, back up-devices are strongly recommended).

Evaluation software GPSdump, FS-Comp. Holders of instruments not readable by GPSdump may bring their own igc-files with valid G-record.

Pitch settings Sprogue settings of flex wings FAI1 can be controlled according to the latest FAI regulations. All pilots have the possibility to self-evaluate their sprogue settings one day before competition starts. The DHV will provide appropriate measuring devices and will give support to the pilots. To ensure proper organization, please notify Regina [regina.glas@dhvmail.de](mailto:regina.glas@dhvmail.de) in time. The sprogue-measuring is recommended to all pilots, who are not sure about their settings and have not measured for a longer period.

Control measuring will be done at the landing site normally, but are also possible at the starting area. These measuring results will be published officially (not the voluntarily ones).

Entry fee Participants will be selected latest until 15.03.2020

SELECTED pilots will change their colour in the entry list from red to orange and have now to effect payment until 01.04.2020 (date of entry at organisers account). Upon settlement of payment, the colour in the entry list will change to green.

After 01.04.2020 all non-paid selected pilots might lose their entry against the lower ranked not selected pilots, who effect payment.
