Reserve Day

In case there is only one task flown, or only 600 points achieved, this Sunday is reserved for a further task.

Starting method: by foot only, from wooden ramp and/or meadow slope

Starting sequence: One class by another, determined by the task committee.

For the first task the international FAI-ranking list applies, with the first ten listed pilots in reversed order. For the following tasks the daily updated competition ranking applies, in the same manner.

Restart is possible, as long the starting window is open.

Headquarter: at landing site Bleibach/Gutach (tent)

Competition classes: FAI 1 and FAI 5, each for men and women

Meet director: Dieter Münchmeyer

Scorer: Willi Kuck

Jury: to be determined, will be announced before competition starts

Validity: Following the priority ranking:

1. This event information
2. DHV competition regulations
3. FAI sporting code

Participants qualifying

The number of pilots is limited to 80. Participants have to qualify according to the International FAI-ranking list. The organizer reserves the right to select 5 pilots.

Livetracking Use of GPS- livetrackers (preferred is the Flymaster tracker as flight results can be directly evaluated) is mandatory.

The organizer has enough trackers for the pilots. Own trackers may be used.

Documentation The tracklogs of the flights are evaluated via the livetrackers. If those data are insufficient, alternatively the records of other GPS-devices (must include altitude) will be evaluated. (Cables for download to be brought by the pilots, back up-devices are strongly recommended).

Evaluation software GPSdump, FS-Comp. Holders of instruments not readable by GPSdump may bring their own igc-files with valid G-record.

Comp-formula latest GAP-formula, settings acc. to competition regulations

Liability Each participant enters the competition at own risk. Claims against organizer, management, meet direction and their staff are excluded as far as covered by law regulations (see declaration: liability exclusion)

Technical qualification

- Air sports equipment
 1. Hanggliders with airworth test certificates legally recognised in Germany.
 2. Hanggliders in test programs which fulfil the requirements of the FAI Sporting Code Section 7A, Version 2023, for 'certified gliders' Section 8.3.1 or 'uncertified gliders' Section 8.3.2. The pilot must show the corresponding test protocols for the load test and the pitch measurements with the settings used for the sprogs and VG.
- Helmet tested according to EN966 (HPG), EN1077-A and -B (ski/snowboard), ASTM 2040 (snow sports) or Snell RS-98

Personal qualification

- Valid pilot's licence or foreign licence
- Valid liability insurance
- FAI sports licence (valid on the day of registration!)
- Signed participants declaration and liability form for DHV competitions. (The documents will be checked during enrolment)

Pitch measurements:

All equipment must be flown in the tested configuration. The organizer can check this at any time. An inspection and the measurement of the setting of the sprogs (for class 1 gliders) by experts authorised by the competition director may take place at any time. Measures and, if necessary, penalties will be based on FAI Sporting Code Sect. 7A. The tolerance of 1° mentioned there will be applied. The measured values may be published.

The organizer will offer the opportunity to voluntarily check the sprog settings on 26.05.2024 at the landing site. The measurements taken there will not be published.
